

Name: _____

Date: _____

PARTS OF A FISH

Look at the fish below. Write the names of the parts and learn what they do!

WHAT DOES EACH PART DO?

Head

The head holds the brain and helps the fish know where to go.

Eyes

Eyes help the fish see things in the water.

Mouth

The mouth is used to eat food and take in water.

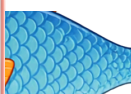

Gills

Gills help the fish breathe underwater.

Fins

Fins help the fish swim, balance, and change direction.

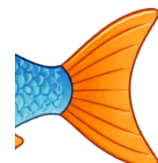

Scales

Scales protect the fish and keep it safe.

Belly

The belly holds the fish's insides and helps it stay balanced.

Tail

The tail helps the fish swim forward.

FISH ARE AMAZING!
