What Is an Even Number?

An even number can be split into pairs with none left over.

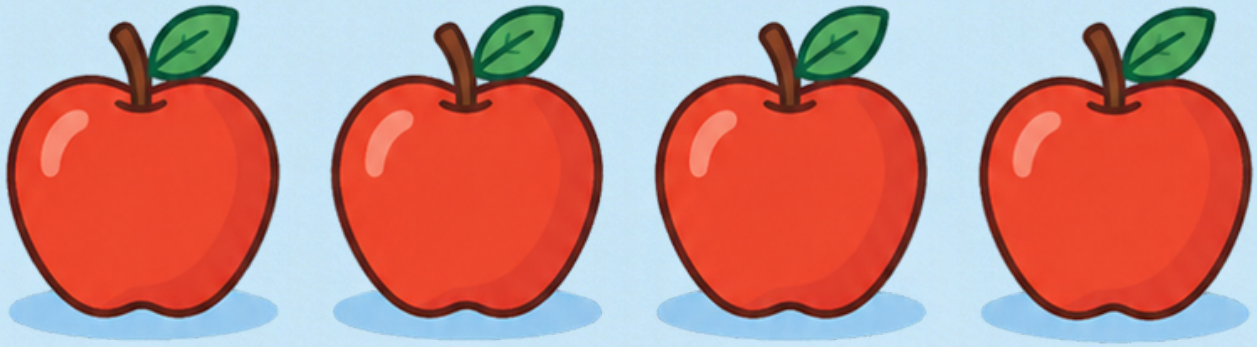

6 is even because every counter has a partner.

Draw a line to pair the counters. Is 8 even?

Even Numbers

2, 4, 6, 8 are even.

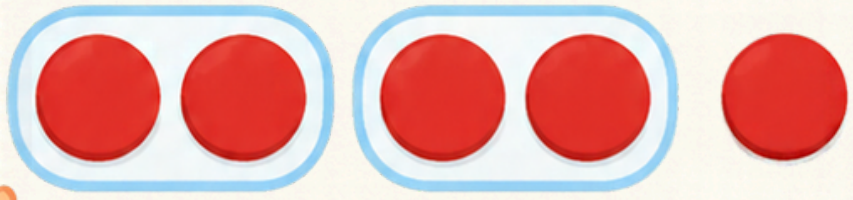

Circle the even numbers:

3, 6, 9, 10

What Are Odd Numbers?

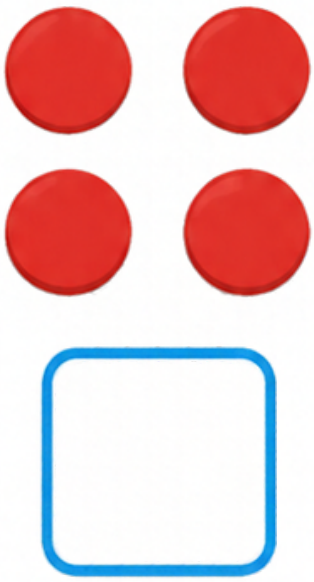

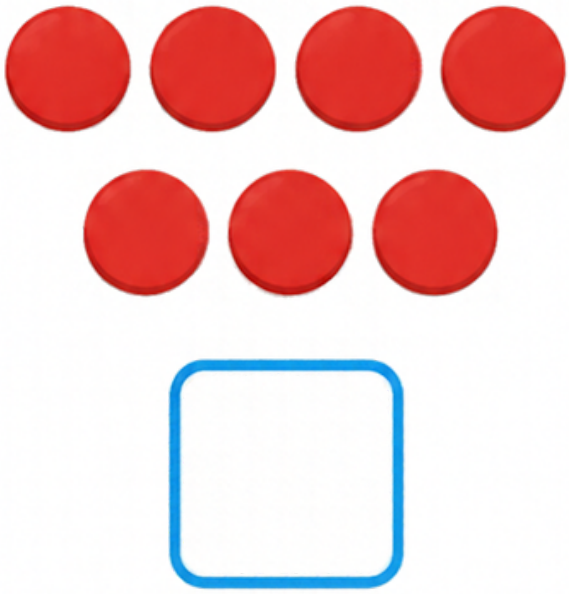

An odd number makes pairs with one left over.

5 is odd because one counter has no partner.

Circle the group with one counter left over.

Odd Numbers

1, 3, 5, 7
are odd.

Circle the odd numbers:

2, 5, 8, 9
