Rounding to the Nearest Thousand

Rounding to the nearest thousand means finding the closest multiple of 1,000.

Look at the hundreds digit:
5 or more rounds up;
4 or less rounds down.

Examples:

3,428 → 3,000 | 3,682 → 4,000

Practice

Round each number to the nearest thousand.

1. 1,247
2. 2,693
3. 4,506
4. 6,812
5. 9,499
6. 12,345
7. 15,678
8. 23,901
9. 37,260
10. 49,722

Rounding to the Nearest Thousand

Rounding to the nearest thousand means finding the closest multiple of 1,000.

Look at the hundreds digit:
5 or more rounds up;
4 or less rounds down.

Examples:

3,428 → 3,000 | 3,682 → 4,000

Practice: Round to the Nearest Thousand

1. 2,349
2. 5,720
3. 8,499
4. 6,500
5. 14,281
6. 27,650

Answer Key

1	2,000	6	28,000
2	6,000	7	15,678
3	8,000	8	23,901
4	7,000	9	37,260
5	14,000	10	49,722
