

Addition & Subtraction are Friends!

Did you know?

Addition and subtraction are opposites!
If you know an addition fact, you also know a

★ **Example** ★

$$3 + 4 = 7$$

(addition)

$$7 - 4 = 3$$

(subtraction)

Your Turn! Fill in the blanks:

1. $2 + 5 = 7$ so $7 - 5 = \underline{\quad}$

2. $4 + 3 = 7$ so $7 - 3 = \underline{\quad}$

3. $1 + 6 = 7$ so $7 - 6 = \underline{\quad}$

4. $5 + 3 = 8$ so $8 - 3 = \underline{\quad}$

5. $2 + 4 = 6$ so $6 - 4 = \underline{\quad}$

6. $3 + 6 = 9$ so $9 - 6 = \underline{\quad}$

Write the Related Fact!

Look at the subtraction fact. Write the addition fact that goes with it!

Example: $9 - 5 = 4 \rightarrow 4 + 5 = 9$

Now you try!

1. $8 - 2 = 6 \rightarrow \underline{\quad} + \underline{\quad} = \underline{\quad}$

2. $7 - 4 = 3 \rightarrow \underline{\quad} + \underline{\quad} = \underline{\quad}$

3. $9 - 3 = 6 \rightarrow \underline{\quad} + \underline{\quad} = \underline{\quad}$

4. $6 - 1 = 5 \rightarrow \underline{\quad} + \underline{\quad} = \underline{\quad}$

5. $10 - 7 = 3 \rightarrow \underline{\quad} + \underline{\quad} = \underline{\quad}$

6. $8 - 5 = 3 \rightarrow \underline{\quad} + \underline{\quad} = \underline{\quad}$

7. $9 - 4 = 5 \rightarrow \underline{\quad} + \underline{\quad} = \underline{\quad}$
